Aetna Better Health® of Virginia

Taking care of your behavioral health during times of uncertainty

Your physical health is important to us. So is your behavioral health. Behavioral health includes mental health treatment and substance use services for you or your child. Many behavioral health providers offer telehealth services. Telehealth is a visit with your doctor by phone or by video. These visits are covered. Call your health care provider to see what telehealth services they offer.

We offer a 24/7 behavioral health crisis hotline. The number is **1-800-279-1878 (TTY: 711)**. We've also partnered with Mental Health America of Virginia (MHAV) and AliveRVA. You can call and talk with people over the phone who can tell you about their own experiences with mental

health and/or substance use challenges. They can tell you how they recovered. You can call AliveRVA at **1-833-473-3782** between 8 AM and 12 AM 7 days a week, 365 days a year. You can also call MHAV at **1-866-400-6428** Monday through Friday from 9 AM to 9 PM and Saturday and Sunday from 5 to 9 PM, 365 days a year.

Are your kids up-to-date on their vaccines?

Once upon a time in the U.S., diseases made a lot of children very sick. Those diseases aren't as common now, thanks to vaccines. But most are still around — and could be a risk. That's a great reason to make sure your kids get their recommended vaccinations on time.

Safe immunity

Immunizations are safe. They help kids build immunity to the diseases that the vaccines help prevent. One example is measles. This illness spreads very easily. It can cause serious problems and even death. In 2000 there were no cases of measles in the U.S. But since then, new outbreaks have occurred among people who were not vaccinated.

Vaccines also help prevent diseases like whooping cough, chickenpox, and meningitis.

Protecting your child is important. But there's another reason kids need their vaccines. It helps protect other members of your family and your community — through herd immunity.

Part of your back-to-school list

Back-to-school checkups are a good time to make sure your kids' vaccines are up-to-date.

Because of COVID-19, school schedules may look different in many areas. But vaccines are still

important — whether your kids are being home schooled, attending school part time, or back on a regular school schedule.

Which vaccines might your child or teen need? That depends on things like your child's age and vaccine history.

Find out what experts recommend. Check the Centers for Disease Control and Prevention's list of vaccines for kids at **[CDC.gov/Vaccines/Schedules](https://www.cdc.gov/Vaccines/Schedules)**.

Talk to your child's doctor if you have questions about vaccines.

Join our Member Advisory Committee today!

The Aetna Better Health Member Advisory Committee (MAC) wants you. MAC gives you a chance to provide feedback on your experiences. Your voice impacts our choices about your health care. The MAC is made up of our members, parents, caregivers, and community partners. For more information, visit our website. Go to **[AetnaBetterHealth.com/Virginia](https://www.AetnaBetterHealth.com/Virginia)**. Select "For Members." Then select "Updates and info" and "Member Advisory Committee" on the left-hand drop-down.

Interested in joining? Submit the form online on our website mentioned above. We will reach out to you when we get your information. We look forward to hearing from you!

Breathe better: An easy plan to keep your asthma in check

Inhale. Exhale. For someone with asthma, breathing can be frustrating and sometimes scary.

Here's how you can get your asthma under control so that you can breathe better and do the things you love.

It's easy to create an asthma action plan

All people with asthma should have an asthma action plan. It's a written plan that you develop with your doctor to help control your asthma. An asthma action plan is an important tool to share with caregivers of children with asthma, including day care providers, schools, and after-school programs.

Your asthma action plan should include:

- Triggers (things that make your asthma worse)
- Medicines to take and when to take them
- How to handle worsening symptoms or attacks
- When to go to the doctor or emergency room

You can download and print an asthma action plan at [doe.virginia.gov/support/health_medical/office/va-asthma-action-plan-2020.pdf](https://www.doe.virginia.gov/support/health_medical/office/va-asthma-action-plan-2020.pdf).

Remember to work with your doctor to create a plan that's right for you or your child.

As a member of Aetna Better Health of Virginia, you also have added benefits you can use if you or your child has asthma. You can receive hypoallergenic bedding and carpet cleaning services at no cost. As part of our Better Breathing program, school-age members with asthma can also get a second inhaler/nebulizer to use at school.

 To learn more about how you can use these benefits, call Member Services. Their number is **1-800-279-1878 (TTY: 711)**.

Providers can call interpreters for you

Did you know? Your doctor can call an interpreter for you if you need one. The following interpretation requests are available to you:

- **In person**
 - The interpreter will meet you at your appointment (such as the doctor's office or your home).
 - Requests should be submitted at least three business days ahead of the appointment.
- **Over the phone**
 - Requests can be submitted the same day.
- **Video (Zoom)**
 - Requests should be submitted at least three business days ahead of your visit.
 - You need to have an email to have a Zoom meeting.
- **Other scheduled video**
 - The interpreter service provides the link. You must have a cellphone.
 - Requests should be submitted at least three business days ahead of your visit.

For more information, call Member Services. Their number is **1-800-279-1878 (TTY: 711)**. They are available 24 hours a day, 7 days a week.

Empowering you through your period, one month at a time

Aetna Better Health of Virginia cares about our members' ongoing health needs. That includes your menstrual health. Women between the ages of 10 and 55 now have a new benefit they can use to improve their menstrual health. Read on to learn more.

Did you know? Some people miss work or school because they do not have enough menstrual care products. Many people do not have the ability to purchase supplies to manage their periods each month. This means some people may use the same product for a long period of time. Or they use alternatives (such as paper towels or newspaper). This can cause serious health problems, such as yeast infections, bacterial vaginosis, toxic shock syndrome, and urinary tract infections.

Aetna Better Health has developed a new benefit to help you manage your period. As an Aetna Better Health member, you can connect with CVS Pharmacy® each month to receive free menstrual products. They are delivered right to your door. Pads, tampons, and cleansing wipes are examples of items you can get.

There are two convenient ways to place an order. You can order online or by phone. The fastest and easiest way to order is to visit our website. Go to **CVS.com/otchs/abhva**. You can also place your order by calling **1-888-628-2770 (TTY: 711)**. You can speak to an agent Monday through Friday, from 9 AM to 8 PM Eastern time. You can also order anytime via our automated interactive voice response system. Please have your member ID and order ready when placing your order by phone.

Sharing information is important

Do you see a behavioral health doctor? Have you told your primary care provider (PCP)? Your PCP should know if you see a behavioral health doctor. It is important to tell your PCP about other doctors who help you with your health. Aetna Better Health of Virginia wants you to stay healthy. Your PCP may know about a drug your behavioral health doctor prescribes. This could lead to problems with other drugs you take.

Do you need help talking with your PCP about your behavioral health care? We are here to help. You can contact our Member Services department. You can call them at **1-800-279-1878 (TTY: 711)**. They are available 24 hours a day, 7 days a week.

Safe fun in the sun

Skin cancer is a disease where malignant (cancerous) cells form in the tissues of the skin. There are several types of skin cancer. Skin cancer is the most common cancer in the United States. It is important to use sunscreen to reduce your risk of skin cancer.

Tips to reduce your risk of skin cancer:

- Use sunscreen that protects against UV radiation.
- Do not stay out in the sun for long periods of time.
- Wear long-sleeved shirts, long pants, and hats when outdoors.
- Wear sunglasses to protect your eyes.

Learn more about how to prevent skin cancer. Visit the Centers for Disease Control and Prevention's website at **CDC.gov/Cancer/Skin/Basic_Info/Prevention.htm**.

Early and Periodic Screening, Diagnostic, and Treatment

Under Early and Periodic Screening, Diagnostic, and Treatment (EPSDT), we ensure that health problems for members under 21 years of age are diagnosed and treated as early as possible. EPSDT services include periodic screenings and vision, dental, and hearing services from birth through age 20. Specifically, these services include:

- Detailed health and developmental history
- Physical exam
- Vision screening
- Hearing screening
- Dental inspection
- Nutrition assessment
- Body mass index (BMI) assessment
- Well-child checkup screening tools
- Immunizations
- Lab tests:
 - Hemoglobin/hematocrit
 - Tuberculin test (for high-risk groups)
 - Blood lead testing

Coverage is available under EPSDT for services even if the service is not available to the rest of

the Medicaid population. All treatment services require service authorization (before the service is rendered by the provider).

Aetna Better Health provides most of the Medicaid EPSDT covered services. However, some EPSDT services, like pediatric dental care, are not covered by Aetna Better Health. For any EPSDT services not covered by Aetna Better Health, you can get these through the Medicaid fee-for-service program.

What is available to you as a Medicaid member

We want you to use your benefits to the fullest. To do that, you have to know what benefits are available. For Medallion 4.0 members, there are no copays or deductibles. **FAMIS members may have copays for certain benefits.**

Here are some of the basic benefits we cover:

- Dentist visits
- Doctor visits
- Emergency care
- Eye exams
- Family planning services
- Flu shots
- Hearing tests
- Home health services
- Hospital care
- Lead screenings for children
- Mental health services
- Physical, occupational, and speech therapies
- Prenatal care
- Prescription medicines
- Services for special health care needs
- Special medical equipment
- Substance abuse treatment
- Vaccines for children
- X-rays
- Yearly wellness exam

To learn more about your benefits, read your member handbook. It is available on our website. Go to **[AetnaBetterHealth.com/Virginia](https://www.aetna.com/betterhealth/virginia)**.

 If you have a question about your benefits, call Member Services. Their number is **1-800-279-1878 (TTY: 711)**. They are available 24 hours a day, 7 days a week.

Get your COVID-19 vaccine today!

In Virginia, everyone 5 years of age or older can get the COVID-19 vaccine. It is free. You'll want to get the vaccine even if you:

- Feel healthy
- Are careful
- Wear a mask in public
- Have already tested positive or had illness from the coronavirus

Questions? You can get more info on our website. Visit [AetnaBetterHealth.com/virginia/covid19.html](https://www.aetna.com/better-health/virginia/covid19.html).

You can also talk with your primary care provider if you have concerns. Remember to keep:

- Wearing your mask
- Practicing social distancing
- Washing your hands

Find a COVID-19 vaccine near you. Go to [Vaccines.gov](https://www.vaccines.gov). You can also make an appointment to get your COVID-19 vaccine at your local CVS Pharmacy. Go to our website at [AetnaBetterHealth.com/virginia/covid19.html](https://www.aetna.com/better-health/virginia/covid19.html). Then select "Make an appointment at a nearby CVS Pharmacy."

Already vaccinated? Don't forget your booster.

Most people who are eligible for the vaccine can get a booster. It is important you know which booster you are eligible for. Look on your vaccine card to see which vaccine you received. Then look at the chart below from the Centers for Disease Control and Prevention to see when you should get your booster.

	Who can get a booster?	When should you get a booster?
If you received the Pfizer-BioNTech COVID-19 vaccine:	First booster: Everyone 12 years and older Second booster: Adults 50 years and older	At least 5 months after completing your primary COVID-19 vaccination series. If eligible for a second booster, at least 4 months after your first booster.
If you received the Moderna COVID-19 vaccine:	First booster: Adults 18 years and older Second booster: Adults 50 years and older	At least 5 months after completing your primary COVID-19 vaccination series. If eligible for a second booster, at least 4 months after your first booster.
If you received the Johnson & Johnson (Janssen) COVID-19 vaccine:	First booster: Adults 18 years and older Second booster: Anyone who got a J&J/Janssen COVID-19 vaccine for their first dose and booster. Adults 50 years and older who first got a J&J/Janssen COVID-19 vaccine, regardless of what type of booster they got.	At least 2 months after completing your primary COVID-19 vaccination series. If eligible for a second booster, at least 4 months after your first booster.

Which booster can you get? The first and second adult boosters must be an mRNA COVID-19 vaccine (Pfizer-BioNTech or Moderna). Teens 12–17 years old may only get a Pfizer-BioNTech COVID-19 vaccine booster.

Don't risk losing your Medicaid benefits

Have you moved in the past three years? Has your address or other contact information for you and your family changed? It is important to make sure your health insurance moves with you. Take a moment today to confirm that Aetna Better Health of Virginia has the correct mailing address, phone number, and email address on file so we can reach you in case of any changes to your health coverage.

You may be notified of steps you need to take to keep your coverage. Update your information by calling **1-855-652-8249 (TTY: 711)** or online at [CommonHelp.Virginia.gov](https://www.CommonHelp.Virginia.gov).

Learn more about renewing your benefits on our website. Visit [AetnaBetterHealth.com/virginia/medicaid-renewal.html](https://www.aetna.com/better-health/virginia/medicaid-renewal.html).
